## Experience Details

---

### ● Senior Registered Nurse

2022 - Present

*City General Hospital, Chicago, IL*

Provide advanced patient care in a 300-bed acute care hospital. Supervise a team of nurses, assign patient loads and coordinate care plans with physicians and allied health professionals. Oversee medication administration, monitor complex conditions in medical-surgical and step-down patients, and ensure accurate clinical documentation in the EHR.

### ● Registered Nurse

2019 - 2022

*Horizon Medical Center, Boston, MA*

Delivered direct patient care in emergency and medical-surgical units, performing rapid assessment, triage and stabilization. Administered medications and IV therapies, monitored vital signs and response to treatment, and documented findings in the EHR.

### ● Clinical Nurse

2017 - 2019

*BrightCare Healthcare Services, Denver, CO*

Managed care for patients in outpatient clinics and community health programs with emphasis on chronic disease education and medication management. Conducted comprehensive assessments, developed care plans, and maintained accurate clinical documentation in electronic systems.

### ● Staff Nurse

2015 - 2017

*Meridian Regional Hospital, Austin, TX*

Performed pre- and post-operative nursing care in a surgical unit, monitoring recovery, managing pain protocols and providing wound care. Administered medications per physician orders, completed thorough clinical documentation, and ensured compliance with safety and infection control standards.

### ● Graduate Nurse

2013 - 2015

*Nova Community Hospital, Seattle, WA*

Supported senior nursing staff in delivering bedside care, monitoring vital signs and documenting patient information. Assisted with medical procedures, prepared patients for surgery and coordinated basic discharge education. Built foundational skills in clinical assessment, medication administration and EHR documentation under supervised practice.
