Experience Details

Senior Project Manager

2022 - Present

Apex Digital Solutions

Lead delivery of enterprise software programs valued at over \$12M, coordinating cross-functional teams of 25+ engineers, analysts and designers. Define project scope and deliverables, manage schedules and budgets, run Agile ceremonies and sprint planning, and chair executive governance meetings.

Project Manager

2019 - 2022

Horizon Technology Group

Managed a large-scale CRM transformation across three business divisions, overseeing a \$5M+ budget and multiple vendor contracts. Established project controls and dashboards for schedule, budget and risk tracking; led stakeholder forums and weekly executive updates.

IT Project Manager

2016 - 2019

BrightCore Systems

Led cloud migration projects impacting 1,500+ internal users, including vendor selection, contract negotiation and cutover planning. Reduced infrastructure costs by 18% through vendor optimisation and workload consolidation.

Project Coordinator

2014 - 2016

Meridian Consulting

Supported delivery of technology transformation programs by preparing status reports, maintaining risk registers and coordinating executive updates. Assisted in schedule management, stakeholder communications and documentation of project governance artifacts to ensure alignment with client requirements.

Earlier Project Roles (Junior Project Manager / Project Analyst)

2010 - 2014

Various

Progressed through roles supporting project planning, milestone tracking, performance analysis and governance documentation. Worked closely with development teams on deliverable monitoring and contributed to process improvements that increased team throughput.
